

Full of features

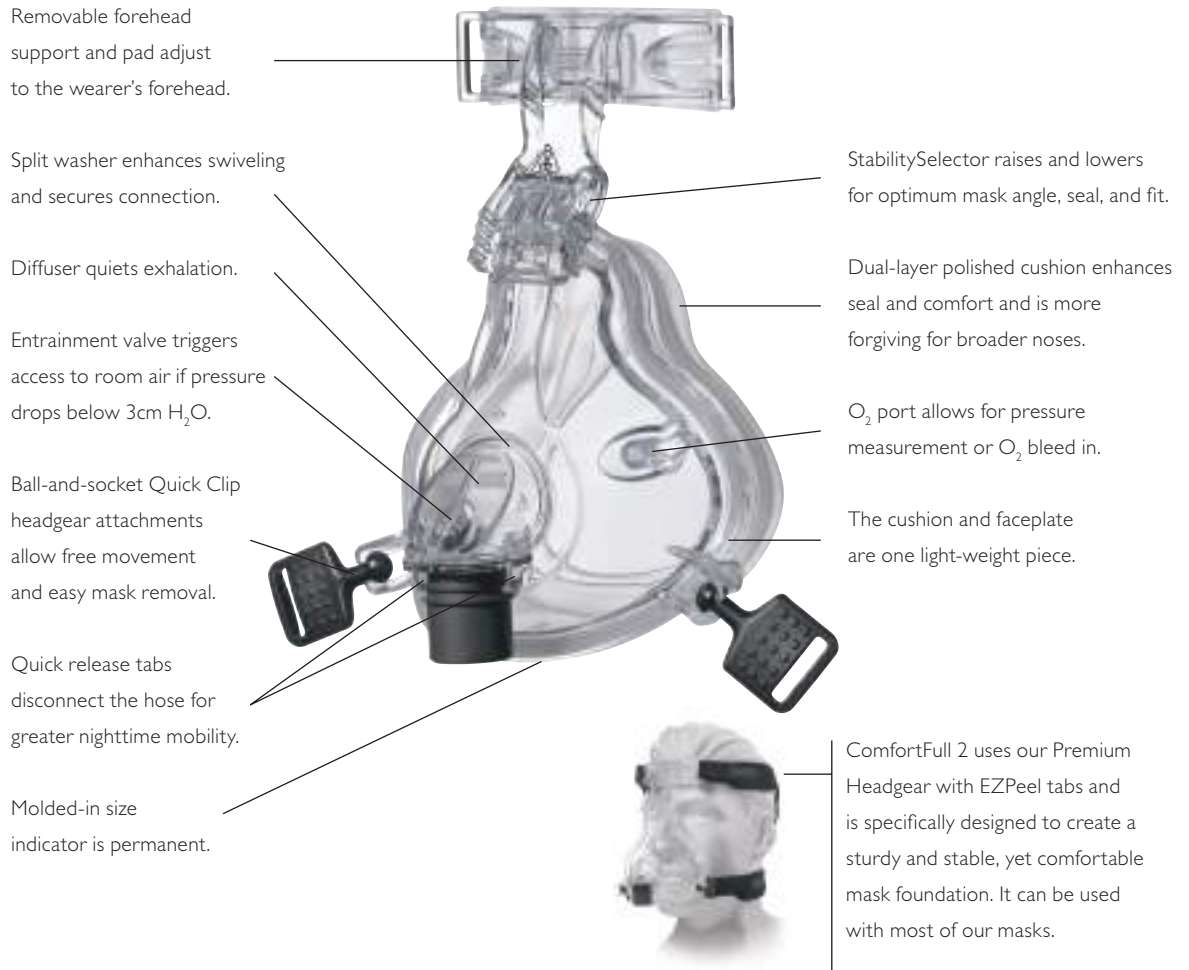

ComfortFull 2 has a host of benefits for your mouth-breathing patients.

This durable, lightweight full-face mask makes it easier for more of your patients to comply with therapy and enjoy a good night's sleep.

ComfortFull 2 provides comfort and seal for many patients whose therapy is compromised by mouth breathing. That performance is achieved by its dual-flap cushion, the unique seal-assuring StabilitySelector, a safety entrainment valve built into the swiveling elbow, and our fully adjustable Premium Headgear. With an extensive range of features, ComfortFull 2 helps to improve patient compliance and enables you to fit more patients – both men and women – with fewer sizes and less inventory. ComfortFull 2 is just one of the ways we're helping you fit 100% of your patients, 100% of the time.
