PHILIPS
RESPIRONICS
sense and simplicity

Wisp

Performance has a new style

Developing solutions that meet the needs of a rapidly changing industry calls for fresh thinking and collaboration. At Philips Respironics we traveled around the world asking clinicians, homecare providers, and patients how we could improve their experience.

Clinicians wanted us to resolve the tradeoff between nasal and pillows masks, homecare providers wanted a solution that could reduce operational complexity by getting more patients served from one package, and patients wanted a better overall mask experience that improved their lifestyle.

When you put it all together, the answer is Wisp.

At Philips Respironics we're listening carefully to you and working toward solutions that contribute to healthy patients and healthy businesses.

- Compact design comfortably fits more than **98%** of patients

- Patients said they had a **better quality of sleep** with Wisp over the leading pillows and nasal masks

- Open field of vision for a feeling of **greater independence** — patients can read and even wear their glasses

Wisp delivers

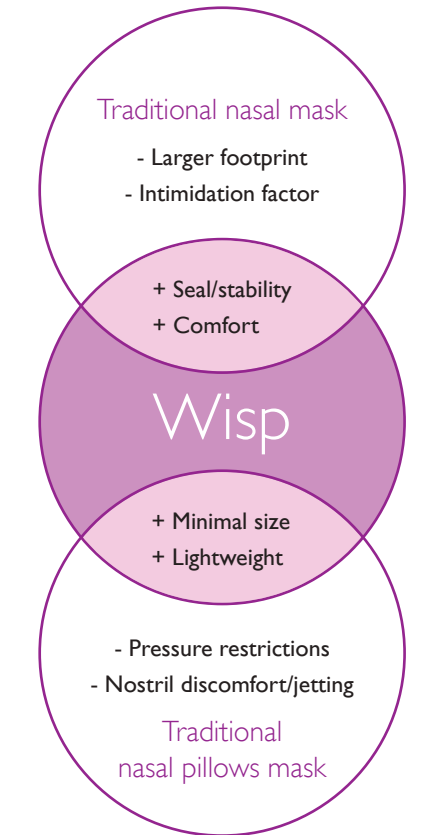

During our CPAP patient preference and RT/ST ease of use studies, Wisp was preferred over the leading nasal and nasal pillows masks in these categories:

Patient preference study results	Comfort
	Ease of use
	Seal
	Quality of sleep
	Less nostril irritation

RT/ST preference study results	Fit & seal
	Ease of assembly & disassembly
	Ease of patient setup

• The minimized design and headgear clips make it easier for patients to use and clean

Resolving the tradeoff

Our unique tip-of-the-nose cushion is designed to sit below the nose bridge for a minimal contact experience and superior seal.

Each package contains all three cushion sizes, which fit on the same frame.

Order Wisp now to see how we're changing the face of sleep for you and your patients

Item	Part number	U.S. HCPCS code
Wisp, fabric frame		
Wisp mask with fabric frame, with headgear	1094051	A7034, A7035

Wisp headgear, large size	1094078	A7035
Wisp headgear clips	1094083	N/A

Manage your patient resupply with one solution, Fit for Life, included with every Wisp mask.

Pick your Wisp

Why patients preferred each version from an appeal perspective

Clear frame preference

- Silicone is less visible and doesn't draw attention to the face
- Translucent, looks smaller

Fabric frame preference

- Feels softer and more pliable
- Gets you closer to the feeling of your pillow
- Easier to sleep on your side
